

大口径塑料管材撕碎机

Ultra Big Diameter Plastic Pipe Shredder

描述:
PNGS系列撕碎机的主要侧重点是回收大口径管材及成捆小型管材和型材，材质主要为HDPE、PP以及各种PVC材料。另外，该系列机型还可用于回收其他塑料制品，包括大型块头料、成堆的垃圾箱和托盘等。PNGS系列撕碎机配套WANROOETECH其他回收设备如破碎机和磨粉机一起使用，即可组成一套完整的塑料细化回收流水线。

Description:
The main focus of the PNGS shredders are used to shred large diameter pipes or bundles of smaller pipes and profiles made from HDPE, PP and all kinds of PVC. Besides, the machines can be used for recycling of other plastic parts, such as large lumps, stacked waste bins and pallets, In combination with other WANROOETECH size reduction equipment such as granulators and pulverizers, we are able to provide a complete turnkey recycling solution.

产品参数 Specification

	PNGS-800	PNGS-1000	PNGS-1200	PNGS-1500	PNGS-2000
Feeding Port Dimension(mm)(喂料口尺寸)	750X790	960X790	1140X1160	1340X1360	1540X1540
Shredding Rotor Diameter(mm)(动刀旋转直径)	Φ850	Φ1030	Φ1260	Φ1500	Φ2000
Rotor Speed(转速RPM)	36	33	27	23	17
Driving Motor (KW)(主电机)	30+30	37+37	45+45	55+55	75+75
MAX Pipe Diameter(mm)(适应最大管材直径)	630	800	1000	1200	1600
Hydraulic Power(KW)(液压系统功率)	11	15	15	15	18.5
Output(Kg/h)(产量)	800-1000	1000-1500	1200-1800	1500-2000	2000-3000

注:具体产量和设备配置视材料而定。
The above is just for reference, the real capacity or specifications dependent on your exclusive material.

应用:
PNGS系列管材撕碎机组适用于直径≤1200MM、长度≤6000MM的PE、PP、PVC管材、异型材的破碎。将需要破碎的物料放入喂料槽内，由液压推进装置推动物料进行撕碎，然后通过输送机进入破碎机进行二次破碎。

Applicable raw materials:
PNGS series pipe shredder is suitable for shredding PE, PP,PVC pipes and profiles which diameter is ≤1200mm and length is ≤6000mm.Working principle: Put the material into the shredding chamber and then push the material to shred by hydraulic pushing device.After the shredder,the conveyor transport the shredded material into crusher for secondary crushing.
